picture-tube

git shortlog
James Halliday (10):
    working thing
    image viewer bin script
    reset the display and dy /= 2
    readme with examples
    fix the code example
    formatting
    fix scrambled output bug, read alpha
    fix the dy
    emit end on the output stream
    using event-stream and streaming charm api

How to use picture-tube

- picture-tube your-favorite-pic.png

- picture-tube http://example.com/pic.png

- Also use as a library

  – https://github.com/wlaurance/fuji/blob/master/bin/fuji

tsm

- Titanium SDK Manager
  - https://github.com/russfrank/tsm

Using tsm

tsm ls installed
Using SDK path: /home/will/.titanium/mobilesdk
data: Version Revision Build Date   Installed?
data: 2.1.2   ed7f777 08/24/12 14:46 ✓
data: 2.1.3   15997d0 10/02/12 16:16 ✓
data: 3.1.0   1ed1662 02/05/13 15:18 ✓

tsm run 2.1.3
Using SDK path: /home/will/.titanium/mobilesdk
Appcelerator Titanium
Copyright (c) 2010-2012 by Appcelerator, Inc.

commands:

  create   - create a project
  run   - run an existing project
  clean   - clean builds
  emulator   - start the emulator (android)
  docgen   - generate html docs for a module (android)
  fastdev   - management for the Android fastdev server
  help   - get help

Allows access to the build.py script. Very useful for command line dev in Titanium projects.

Glog

- NodeJS and Git backed blogging engine
- Built on Express
- Exposes custom plug-in hooks

Using Glog

- Clone https://github.com/guyht/Glog/

- Fork https://github.com/guyht/Guido or set up a repository with the same structure.

- Point Glog config to your blog repository.

- Add a custom WebHook on Github for your blob repository. http://www.yourdomain.com/__render

- When you push a new article to the blog repo, the Glog instance will do a git pull and render your new articles.

- Full instructions https://github.com/guyht/Glog#readme

Glog Extras

- Customize urls in articles
  https://github.com/wlaurance/gurl

- Add ditaa diagrams
  https://github.com/wlaurance/node-ditaa

- Customized logger for Glog
  https://github.com/guyht/glogger
